

SWETHA SUHASINI INDUR

Medical Writer | Pharmacy Postgraduate (M.Pharm, B.Pharm)

Hyderabad, India | +91 8897537810 | indurswethasuhasini1@gmail.com | Languages: English, Telugu, Hindi

PROFESSIONAL PROFILE

Pharmacy postgraduate (Master of Pharmacy, CGPA 8.55) with a strong foundation in pharmacology, clinical research, pharmaceutical operations, biostatistics, and healthcare data interpretation, seeking a **Medical Writer** role with Fortrea Patient Access (FPA). Skilled in researching scientific literature, synthesising **clinical and economic evidence**, and translating complex data into clear, audience-appropriate written content. Experienced in client-facing environments requiring accuracy, organisation, and effective stakeholder communication. Comfortable with both **American and UK English** conventions and proficient with **MS Word, Excel, PowerPoint, Outlook, and EndNote**.

CORE COMPETENCIES

Content Development: Scientific writing, literature reviews, value messaging, slide development, summarising clinical & economic data, drafting reports and educational materials.

Healthcare Knowledge: Pharmaceutical product life cycle, licensing, reimbursement, market access, value communication, basic health economic principles.

Client & Team Support: Client correspondence, meeting notetaking, internal seminars, proofreading, calculation checking, proactive team collaboration.

Research & Analysis: Sourcing peer-reviewed journals, evaluating study quality (design, sample size, journal credibility), interpreting basic biostatistics (p values, CIs, relative risk, hazard ratios).

Project Management: Multi-project coordination, time estimation, deadline tracking, stakeholder updates, accurate record-keeping (SharePoint / Time and Labor type systems).

Software: MS Word, Excel, PowerPoint, Outlook, EndNote (referencing), SharePoint, clinical data applications.

EDUCATION

Master of Pharmacy (M.Pharm)

2023 – 2025

CGPA: 8.55

- Advanced postgraduate training in pharmaceutical sciences, including research methodology, advanced pharmacology, biostatistics, and dissertation-level scientific writing — directly relevant to the research, analysis, and writing demands of a Medical Writer role.
- Strengthened ability to critically appraise clinical literature, design structured reviews, and present complex pharmaceutical data in a clear, audience-appropriate manner.

Bachelor of Pharmacy (B.Pharm) — *RBVRR Women's College of Pharmacy*

Feb 2019 – Feb 2023

CGPA: 7.44

- Coursework: Pharmacology, Pharmaceutical Analysis, Pharmacokinetics, Biostatistics, Pharmacotherapeutics, Pharmaceutical Regulatory Affairs, Clinical Pharmacy.
- Built a strong foundation in interpreting clinical literature, drug development pathways, regulatory and reimbursement processes, and health-related research.

Intermediate (BiPC) — *ARS Junior College*

Feb 2018 – Feb 2019

SSC — *Krishnaveni Talent School, Hyderabad*

Completed Feb 2017

RELEVANT PROJECTS & ACADEMIC WRITING

- **M.Pharm dissertation & advanced research project** — Designed a structured research study, conducted in-depth literature searches across PubMed and peer-reviewed journals, applied biostatistical analysis, and produced a full-length dissertation with rigorously formatted references.

- **Final-year B.Pharm research project** — Conducted literature search across PubMed and peer-reviewed journals, critically appraised study design and statistical outputs, and prepared a structured written report with accurately formatted references.
- **Therapy-area literature reviews** — Rapidly familiarised myself with new therapeutic areas, identified credible data sources, and summarised clinical evidence for academic submissions.
- **Scientific presentations** — Designed and delivered PowerPoint presentations to faculty and peers, translating technical pharmaceutical content into clear, audience-appropriate messaging.
- **Group case studies on pharmacoeconomics & access** — Explored cost-effectiveness, reimbursement, and patient-access concepts relevant to value communication in healthcare.

PROFESSIONAL EXPERIENCE

Customer Support Specialist — *Accenture*

Nov 2023 – Present

Client-facing role applying skills directly transferable to a Medical Writer position.

- **Stakeholder communication:** Interact daily with clients in a clear, concise, professional manner — both verbal and written.
- **Information management:** Research, interpret, and accurately relay information to resolve queries; maintain detailed, accurate records of every interaction.
- **Time & project management:** Juggle multiple cases against SLAs, prioritise workload, and proactively flag delays — directly transferable to managing concurrent writing deliverables.
- **Team collaboration:** Work closely with team members and team leaders, share knowledge, and proactively offer support when capacity allows.
- **Quality & accuracy:** Apply attention to detail and proofreading discipline; follow process documentation and implement directive changes with minimal supervision.
- **Tools:** MS Outlook (scheduling, correspondence), MS Word, Excel, internal CRM and clinical/operational applications.

KEY STRENGTHS

- Strong analytical and organisational skills with a structured approach to research and writing.
- Quick learner — able to rapidly become familiar with new therapy areas and unfamiliar subject matter.
- Detail-oriented with strong proofreading, referencing, and calculation-checking skills.
- Effective team player; comfortable presenting in internal meetings and seminars.
- Flexible — willing to adjust working hours to meet project deadlines, and open to UK / continental Europe travel as required.

ADDITIONAL INFORMATION

- **Training:** Willing to undertake Fortrea internal training on value communication, market access, pricing & reimbursement, health economics, modelling, statistics, referencing, and proofing.
- **Travel:** Open to occasional travel within the UK and continental Europe as required by the role.
- **References:** Available on request.
